RAL 1017

Oriental red
RAL 3031

Dove blue
RAL 5014

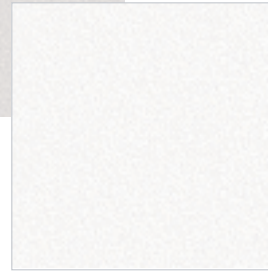

White green
RAL 6019

Wall panels made of coated thin metal sheet are included in the scope of supply of our standard cabins. The colour samples illustrated are available immediately, the production of other RAL colours is possible.

Light grey
RAL 7035

Pure white
RAL 9010

For technical reasons, there can be slight differences in colour between the printed colour samples and the original wall panelling or floor coverings. Fluctuations in colour are also possible from one batch to another from the point of view of the manufacturer. This is particularly true of natural stone plates.

Stainless steel wall panelling is sturdy, durable and elegant. The different surface structures offer interesting design possibilities and make the material easier to keep clean. Stainless steel cabin panelling is only available as an option. The metal sheets shown in reduced scale are available ex stock.

WALL PANELLING FLOOR COVERINGS

Smooth floor coverings
Our cabins are fitted out
as standard with
MIPOLAM Accord.

Studded floor coverings of this type
are particularly durable, insensitive to
many chemicals and have an anti-skid
effect.

These floor coverings can be ordered
as an optional feature. The four
standard colours illustrated are usually
available ex stock. Further colours on
request.
